

Chief David White Safety & Wellness Series at the WCA

The Wilmot Community Association (WCA) is proud to support the Chief David White Safety and Wellness Series. The series is possible due to generous donations made to the WCA in David's name. "We are pleased that we can honor David in this way. Our goal is to offer programs that reflect his commitment to the community," said Nancy Large, president of the WCA.

David's mother, Gretchen White said, "These workshops are a wonderful tribute to David. He would be very pleased." In addition to his long career in law enforcement, David was a volunteer firefighter, a certified rescue diver and volunteer at New London Hospital. Gretchen added, "A series of workshops focusing on safety and wellness is a great fit."

The workshops are offered throughout the year and are free and open to all.
